General Description

An extension of a surface low pressure system, accompanied by an upper air low pressure system.

Weather Today

Partly cloudy and dusty at times with a chance of convective cloud formation associated with rainfall over some Eastern, internal, and Western areas. Light to moderate winds, and fresh to strong at times with clouds causing blowing dust and sand reducing the horizontal visibility. The sea will be slight to moderate in the Arabian Gulf and in Oman Sea, becoming rough at times in cloud activity.
